COVID-19 (OUTBREAK) Customer Information Guide

COVID-19 (Corona Virus)

The safety and wellbeing of our staff and customers is of the utmost importance to all of us at Erect Scaffold. We are monitoring the current Covid-19 (Coronavirus) situation closely and are doing everything we can to make sure that everyone that works with us and for us are in a safe working environment.

Our aim is that our services will continue to function as normal. We are continuing to undertake all of our customers scaffolding requirements. We have introduced new practices in order for us to comply with the Governments latest advice regarding 'Social Distancing'. We now operate a 'No Contact' policy.

Our staff will NOT need to interact with our customers face to face or enter your property whilst inspecting or carrying out any works. We will instead communicate via telephone to keep us all safe and well. We appreciate the cooperation of our customers in the changes to the way that we conduct our business. The pandemic in the UK is constantly changing, all we can do is work together through these difficult times. Further information will be updated as and when we receive it...

Thank you for your cooperation,
CEO
